# The Changing Landscape

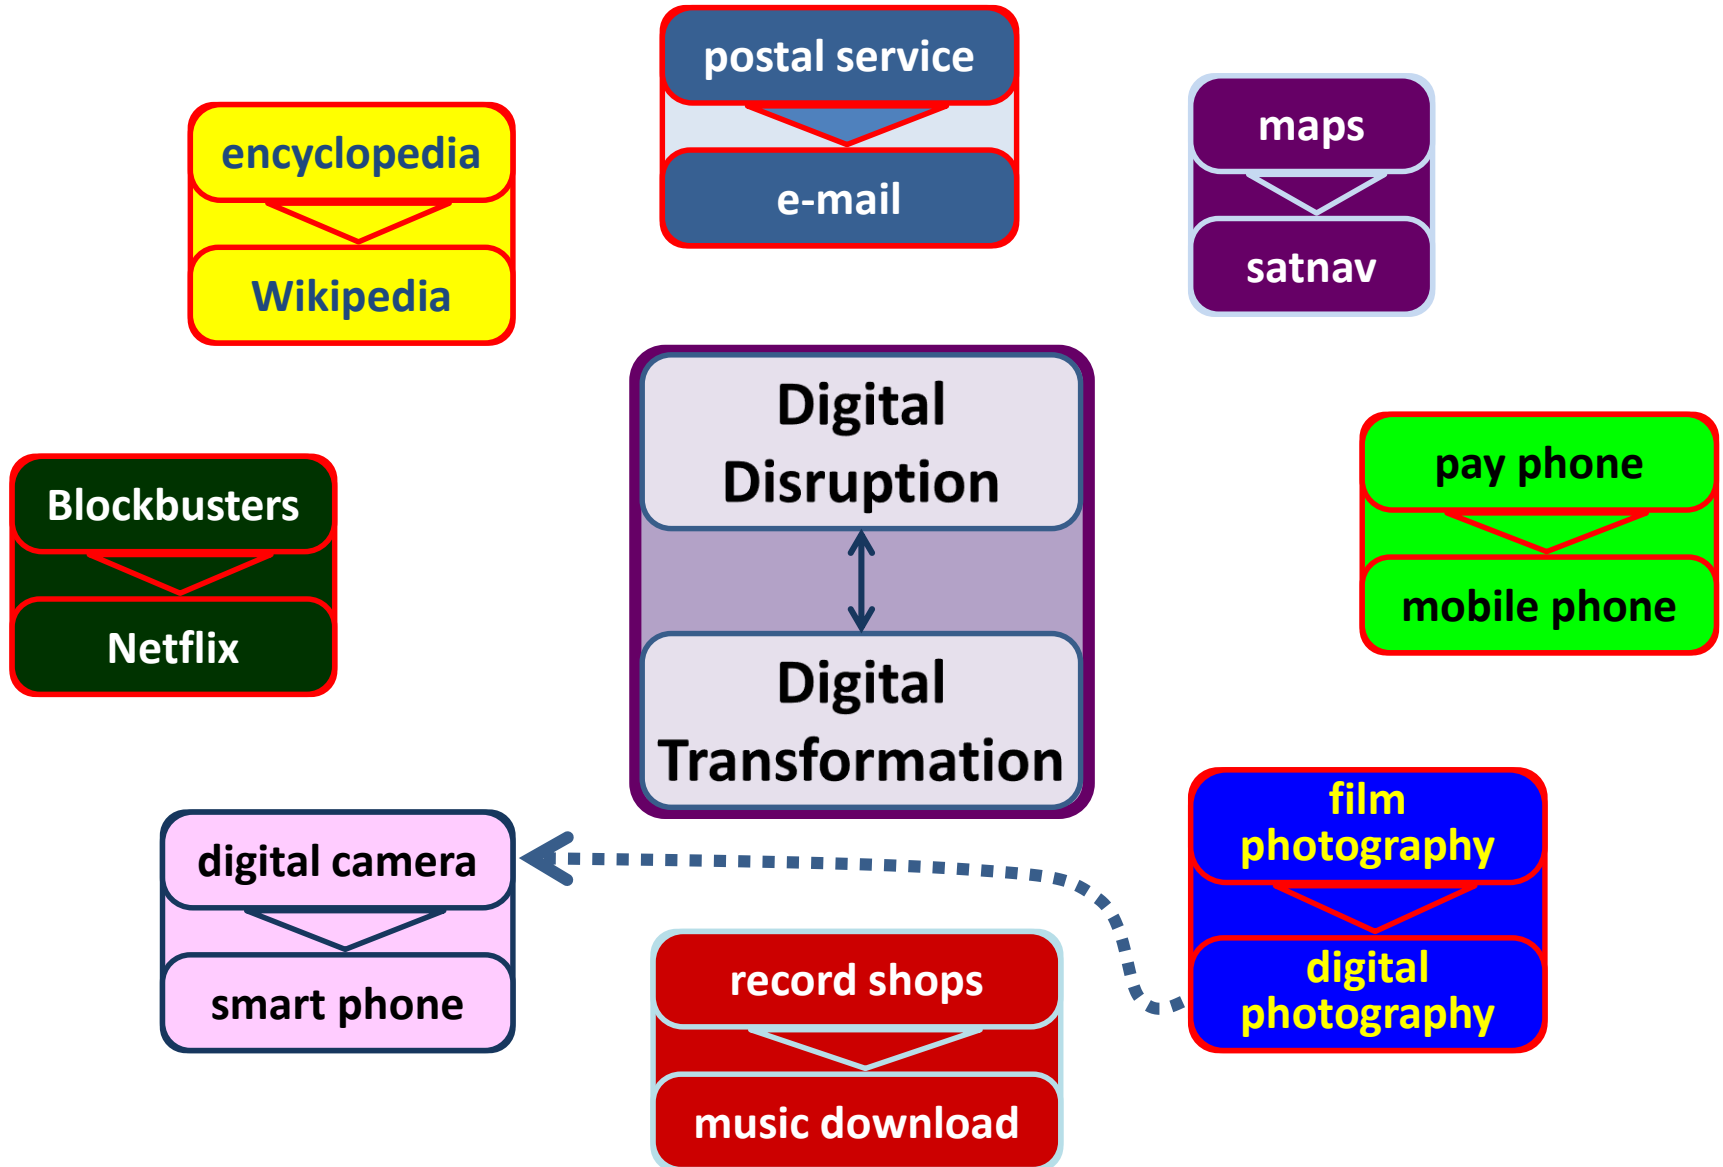

# Technology Enablers

# The Changing Landscape

# Digital Disruption - Examples

# Accelerating - Digital Transformation

25% of the world's economy will be digital by 2020

PayU**biz**

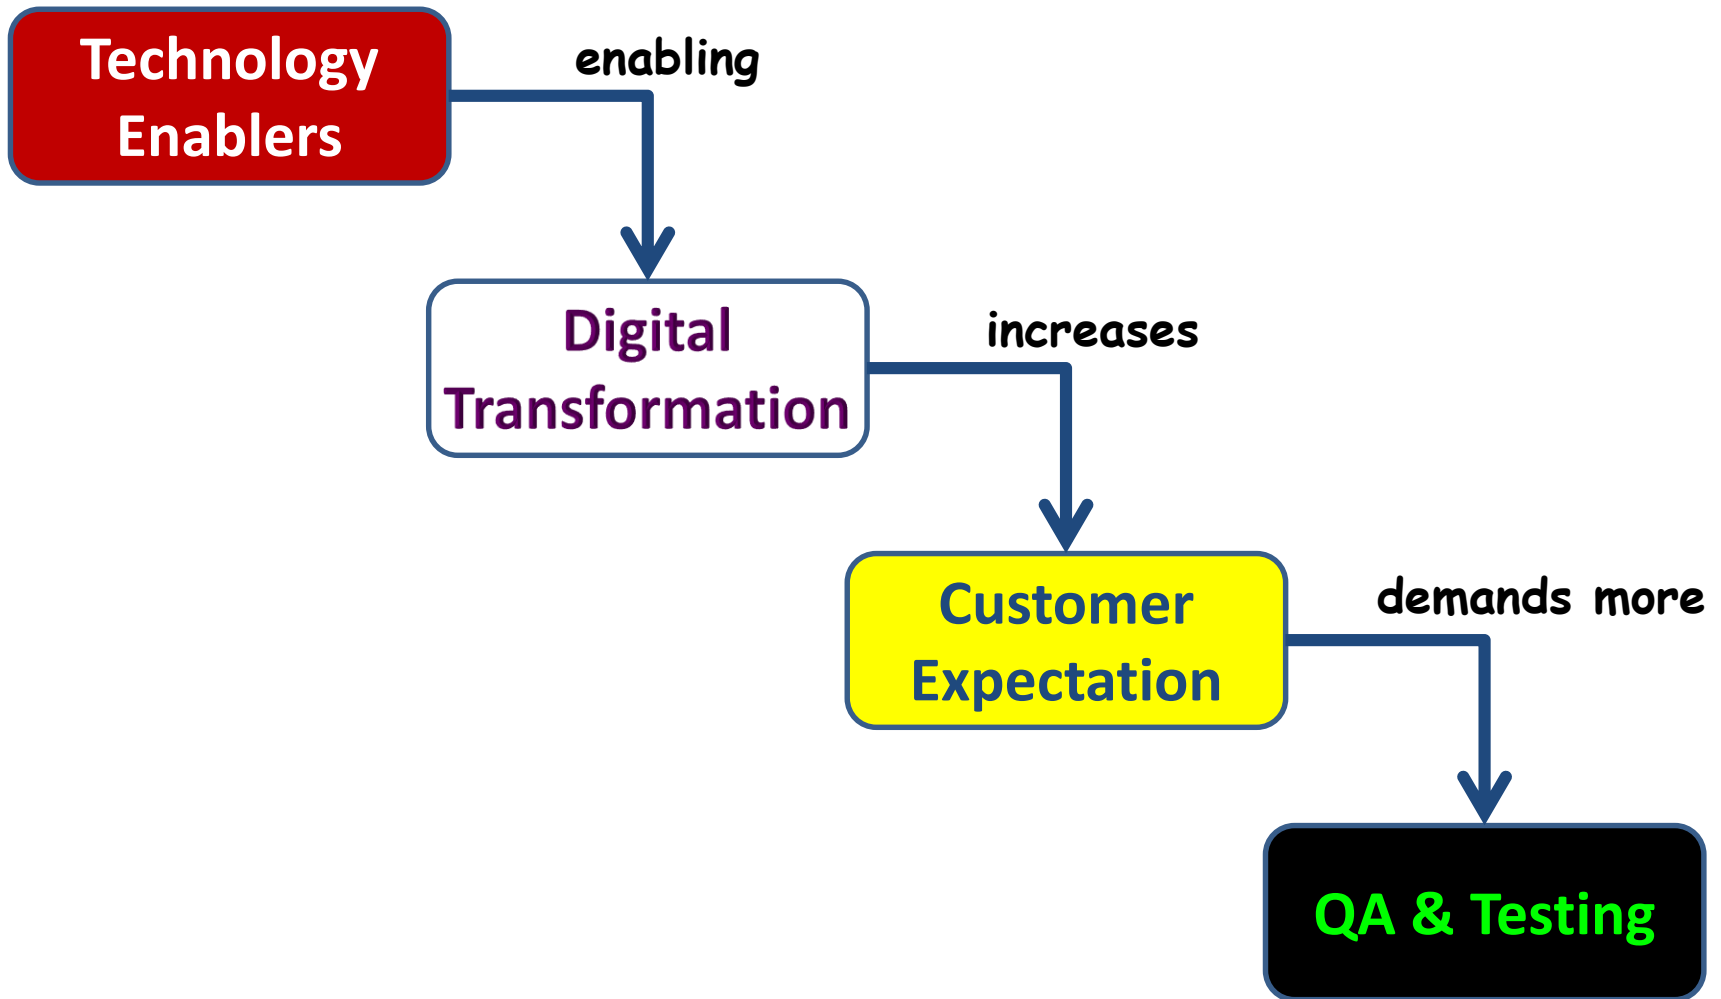

- 64% of retail sales over the 2015-16 Xmas period were based on digital interactions up from 50% a year before

**PayPal**

- 4.2 Billion internet users
- 4.61 Billion mobile phone users

# The Changing Landscape

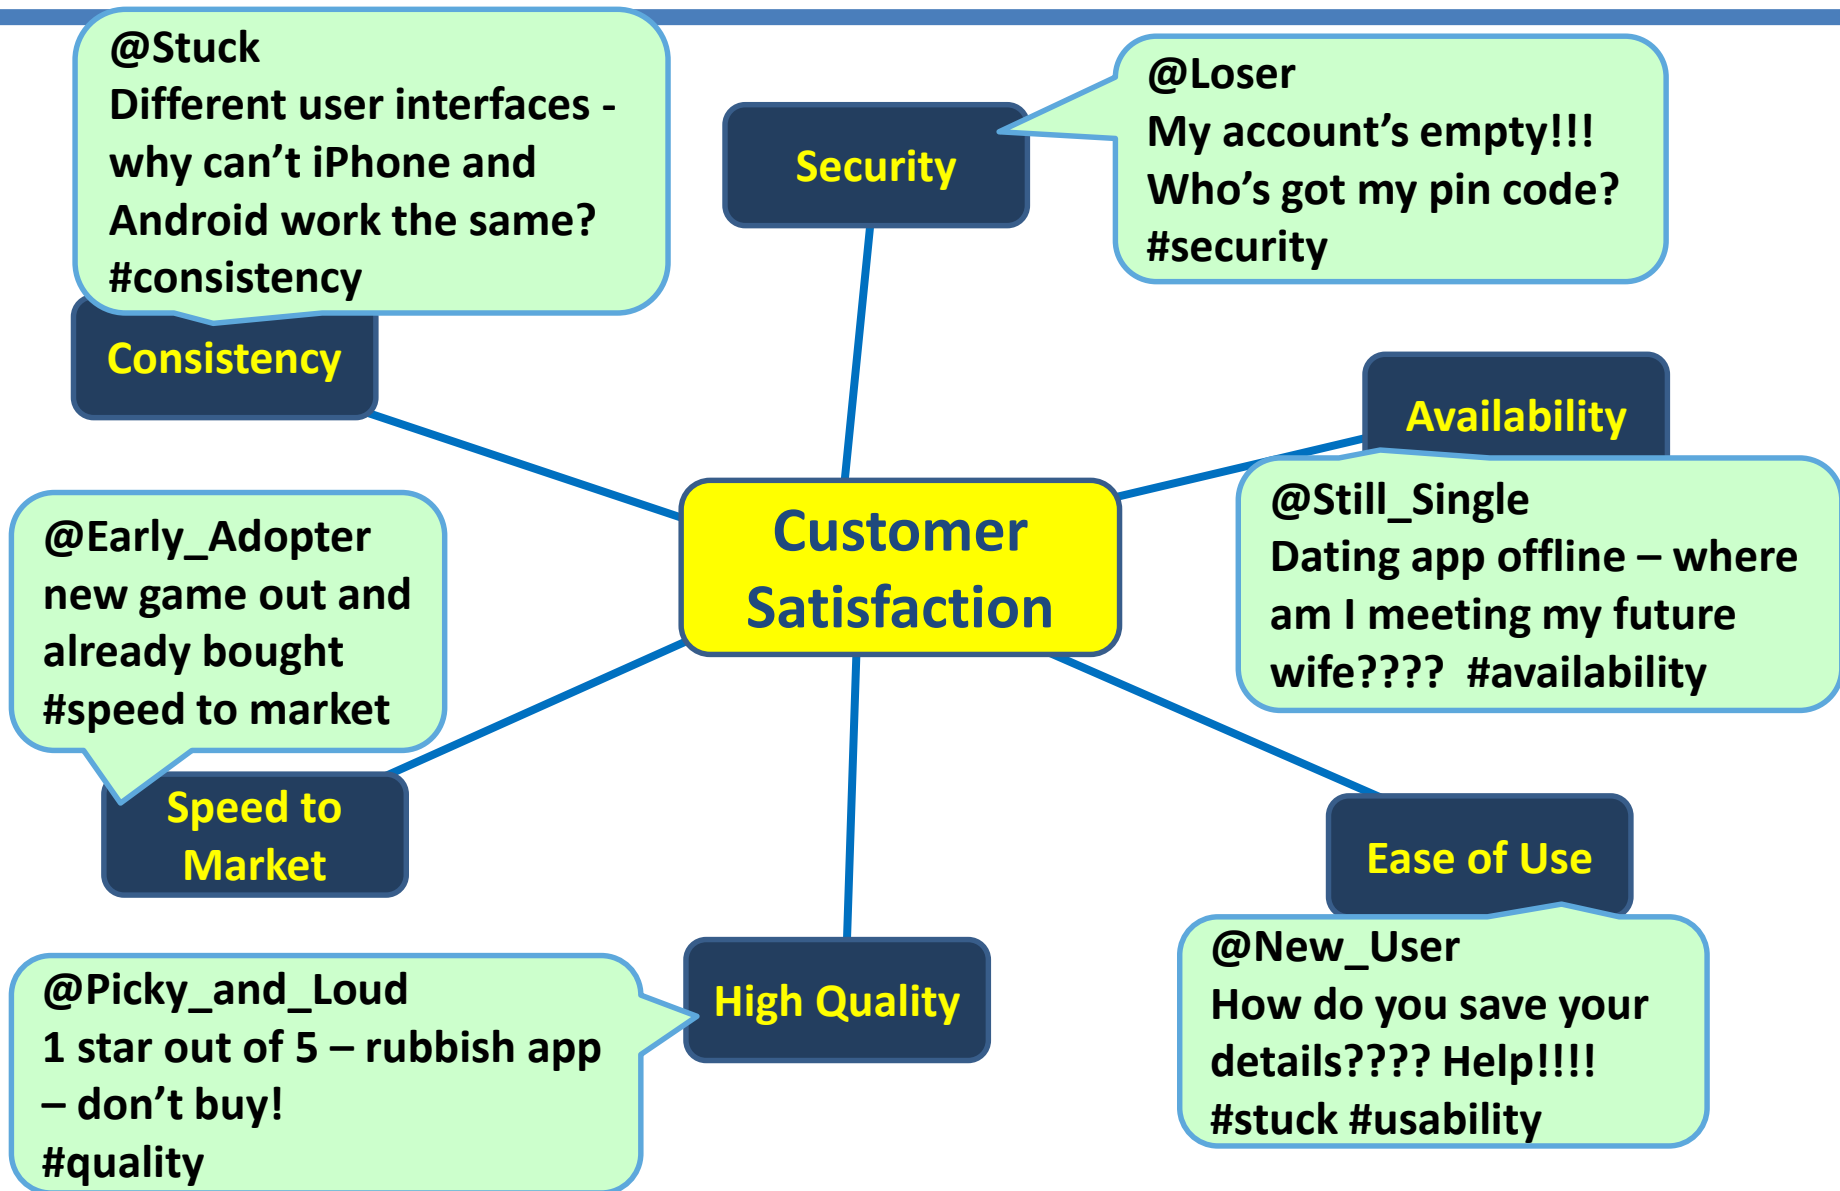

# Customer Expectation → Satisfaction

---

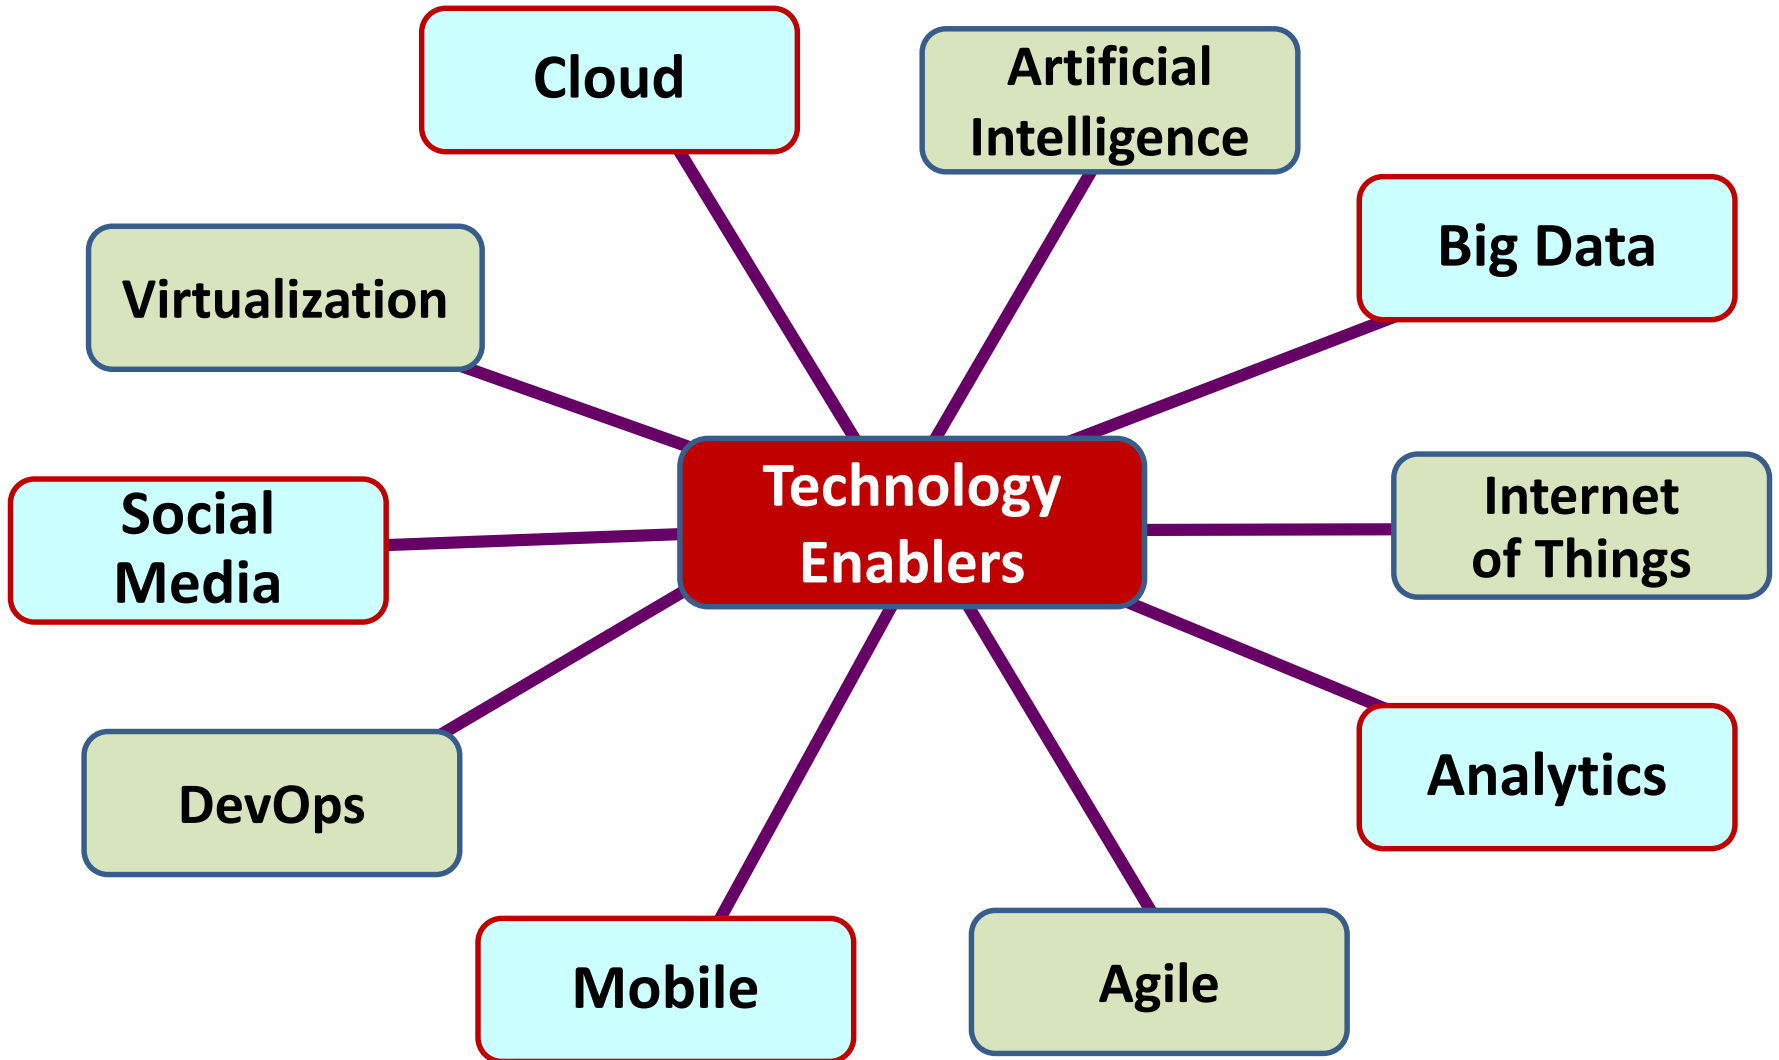

# Customer Expectation → Satisfaction

# Technology complicates, but also helps...

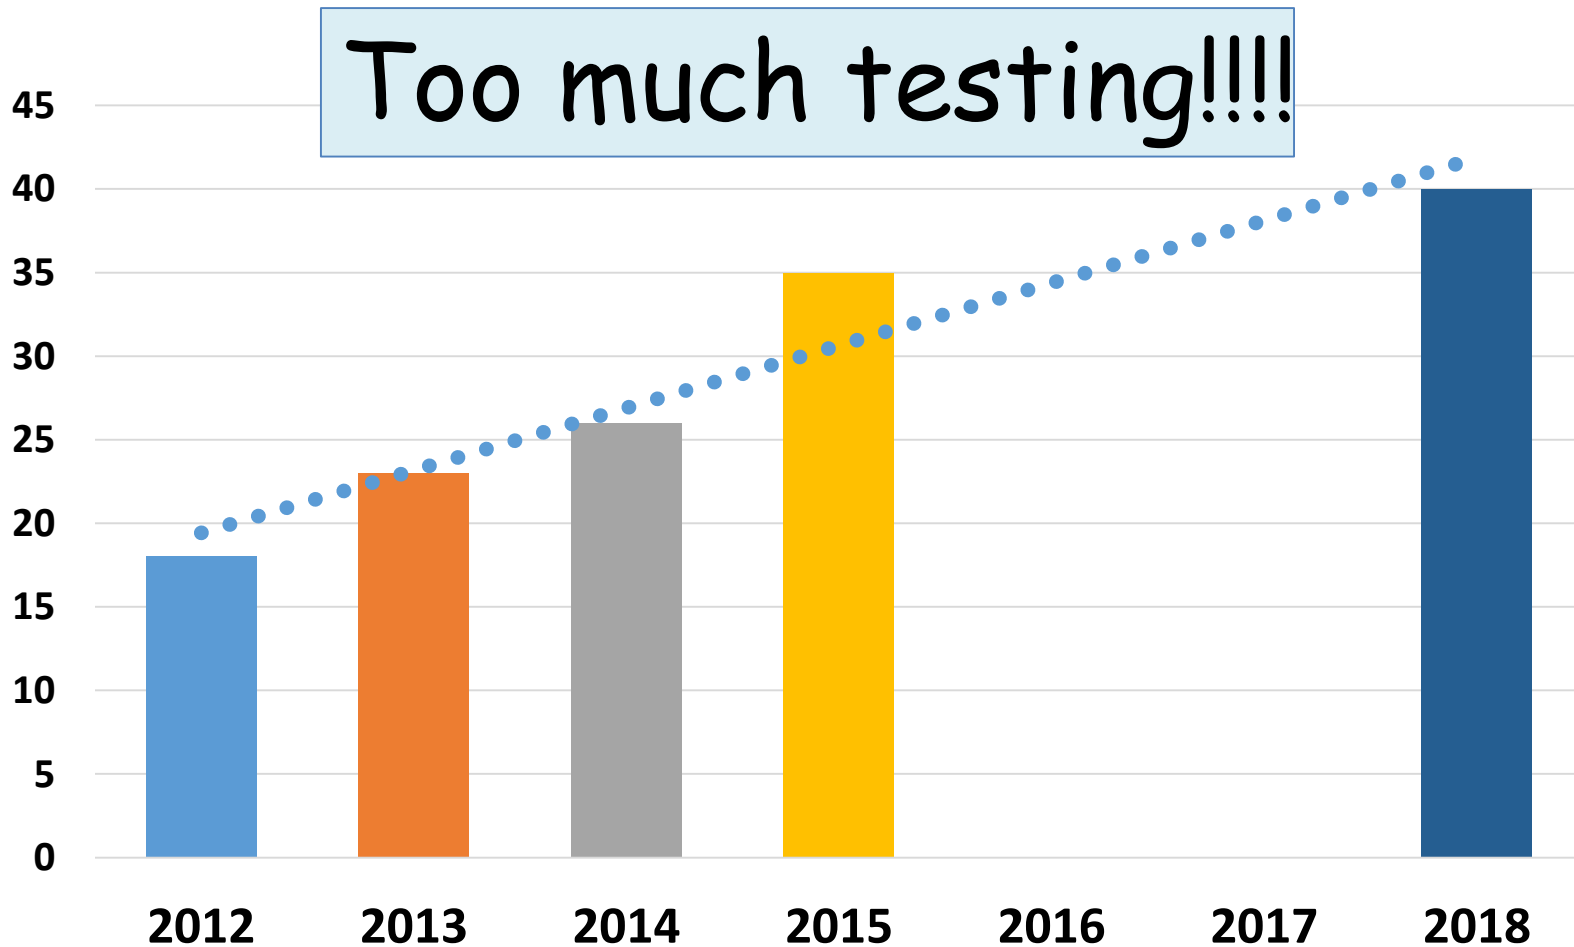

# Technology Enablers

# Technology complicates, but also helps...

# Testing as a Percentage of IT Budget

Is it good enough testing?

# Automation is only a partial answer

*Manual Testing*

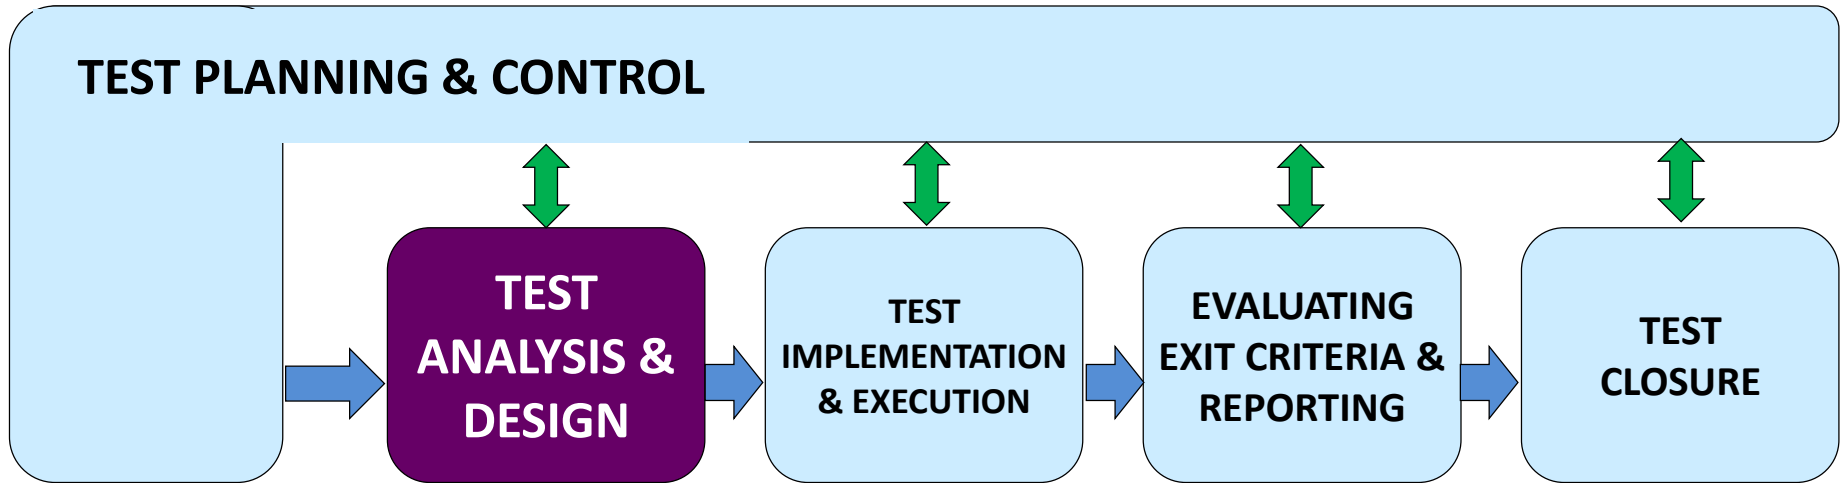

55%

45%

**Test  
Automation**

# ISTQB – Fundamental Test Process

**Its not a very good test process model, either!!!!**

# ISO 29119-2 - Dynamic Test Processes

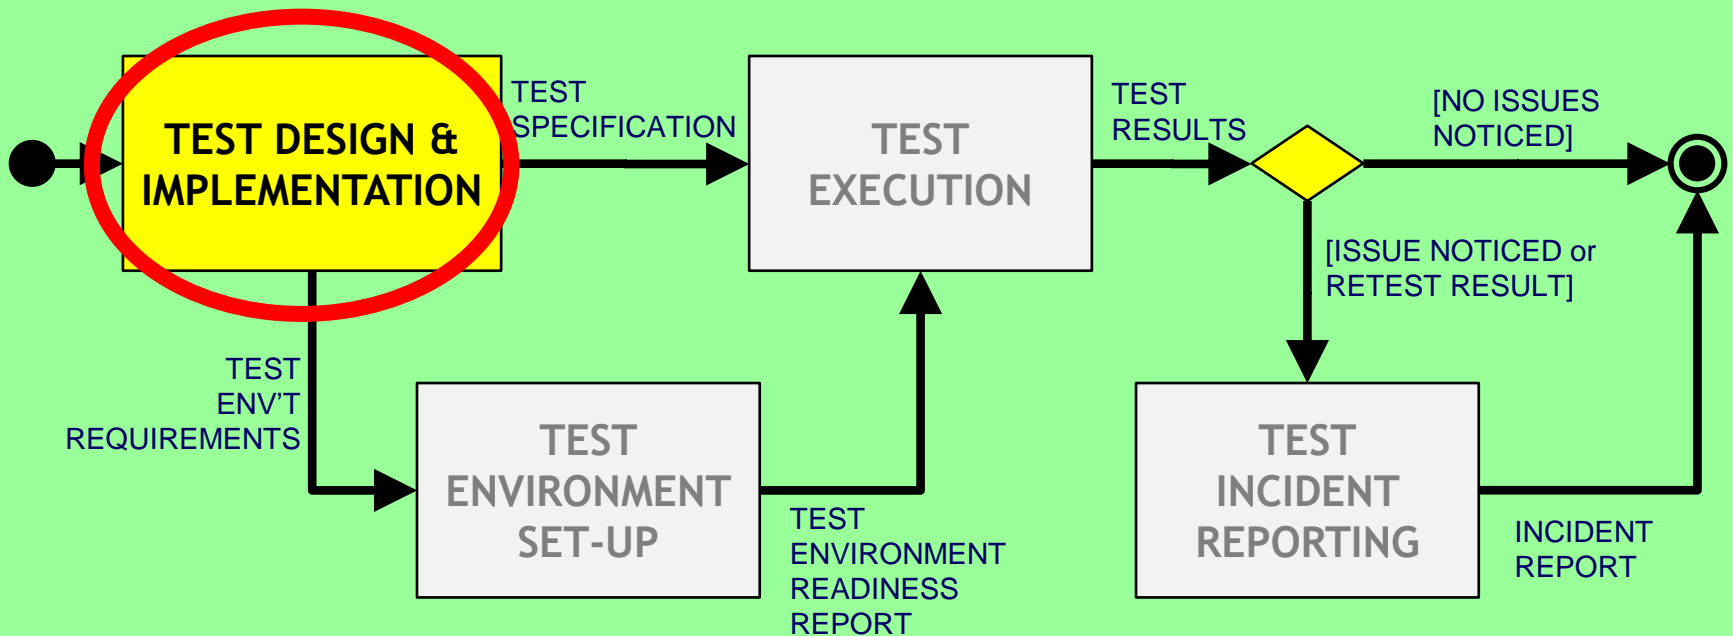

## (LEVEL) TEST MANAGEMENT PROCESS

(LEVEL)  
TEST PLAN

CONTROL  
DIRECTIVES

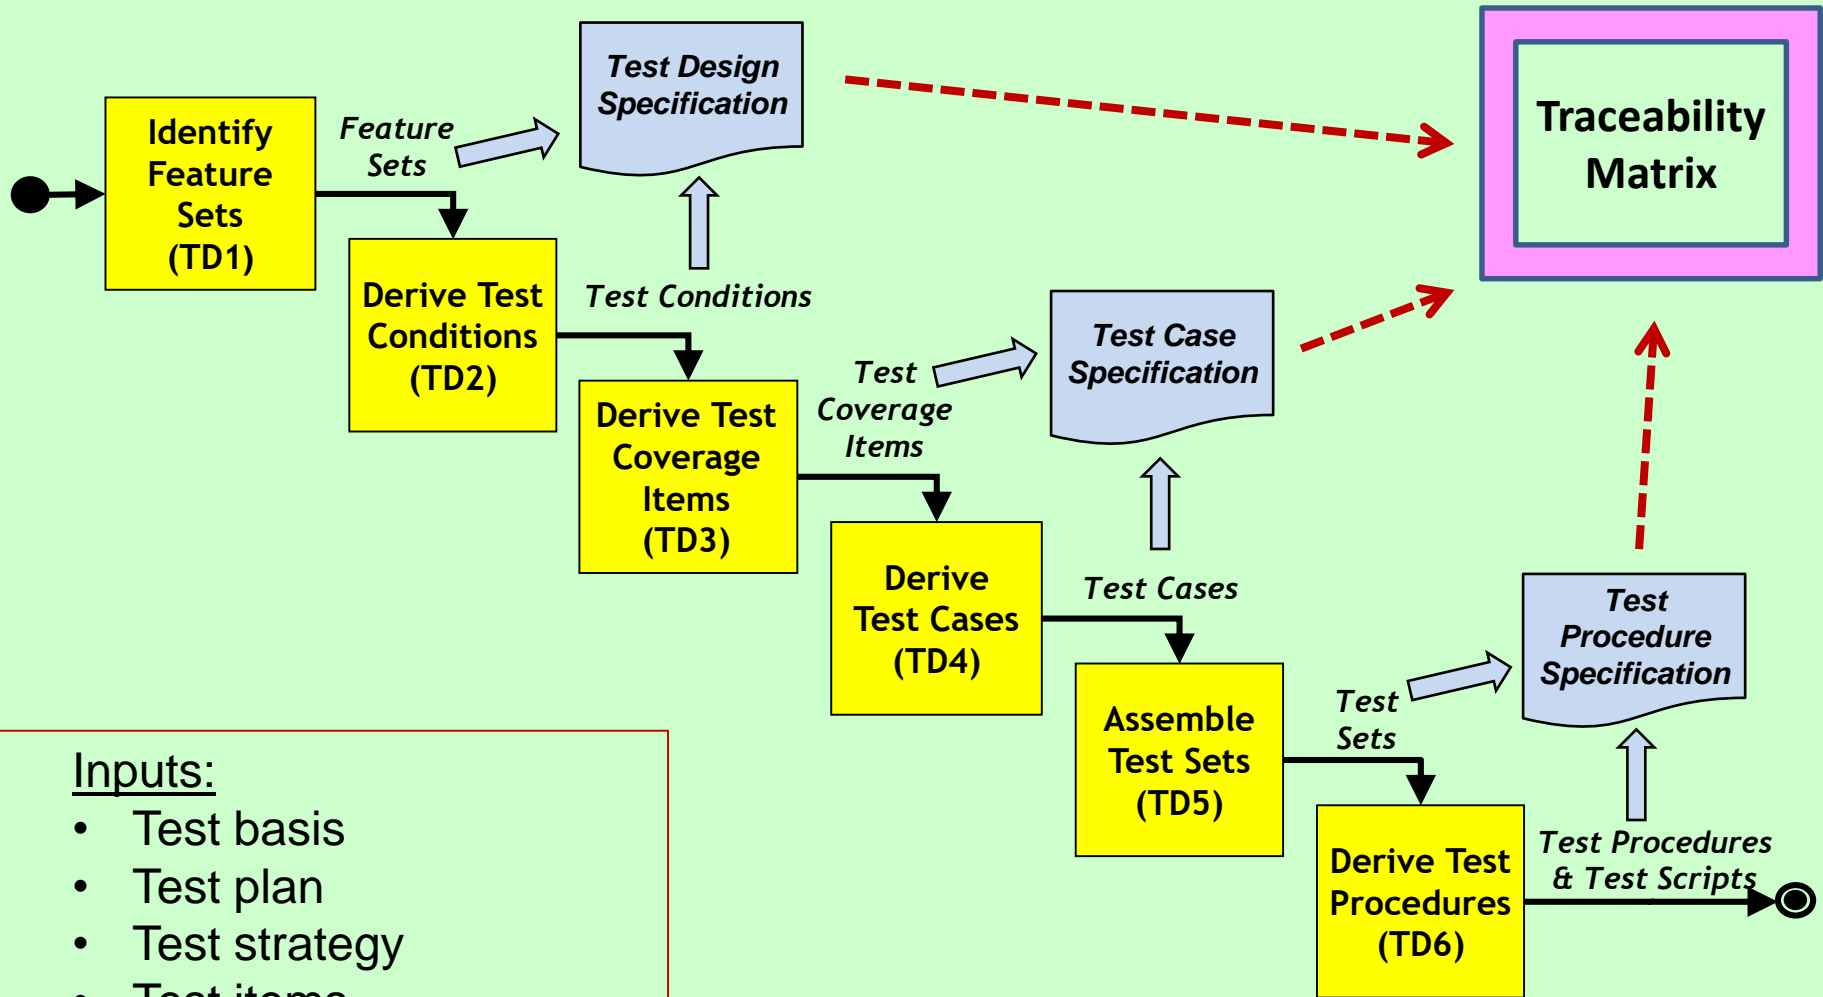

TEST  
MEASURES

## DYNAMIC TEST PROCESSES

# ISO 29119-2 - Test Design & Impl'n

## Inputs:

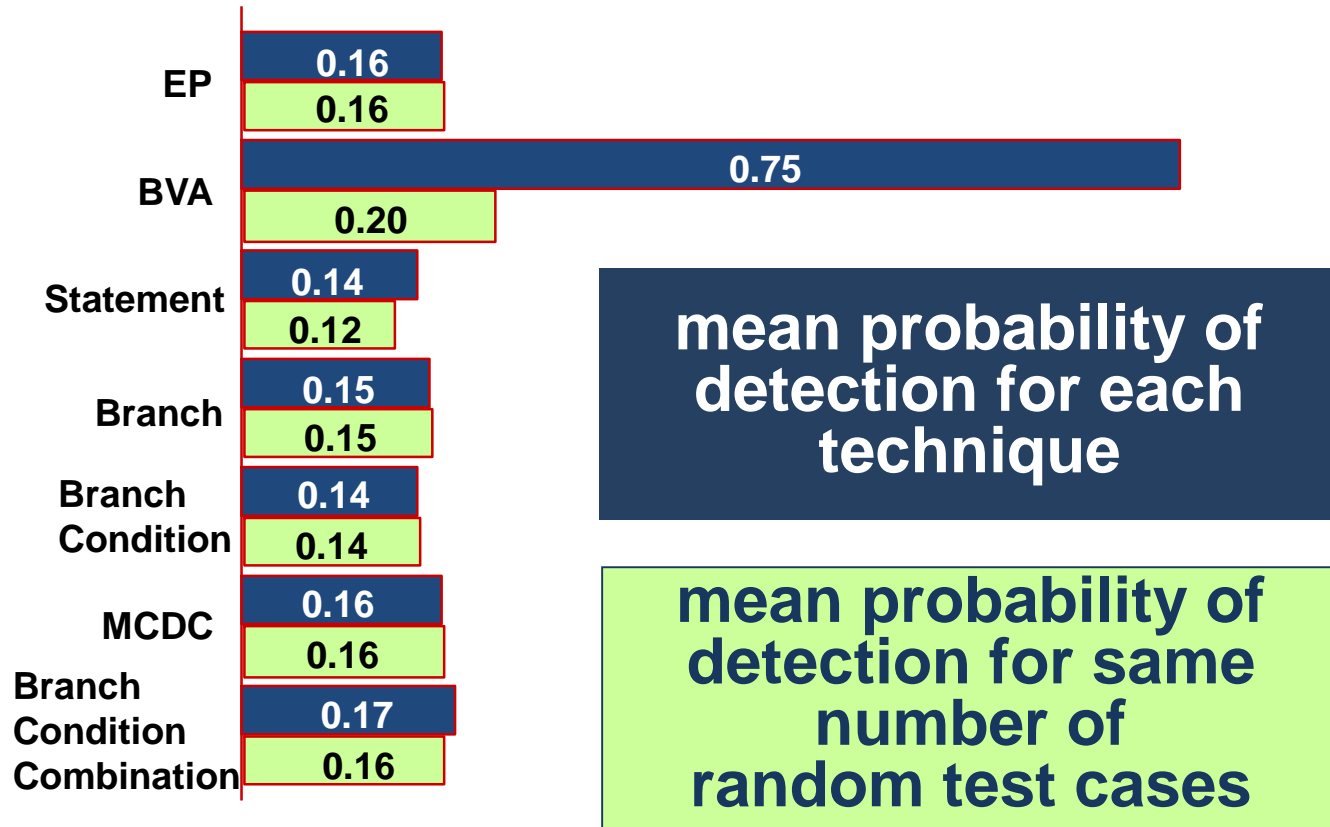

- Test basis
- Test plan
- Test strategy
- Test items
- Test design techniques

# So, what is this future of testing?

- Testing **WITHOUT** Test Design
  - 1) Tests generated using random test generation
  - 2) Tests (generated and) run by the end users

# Experimental Evidence— Random vs Systematic Test Design

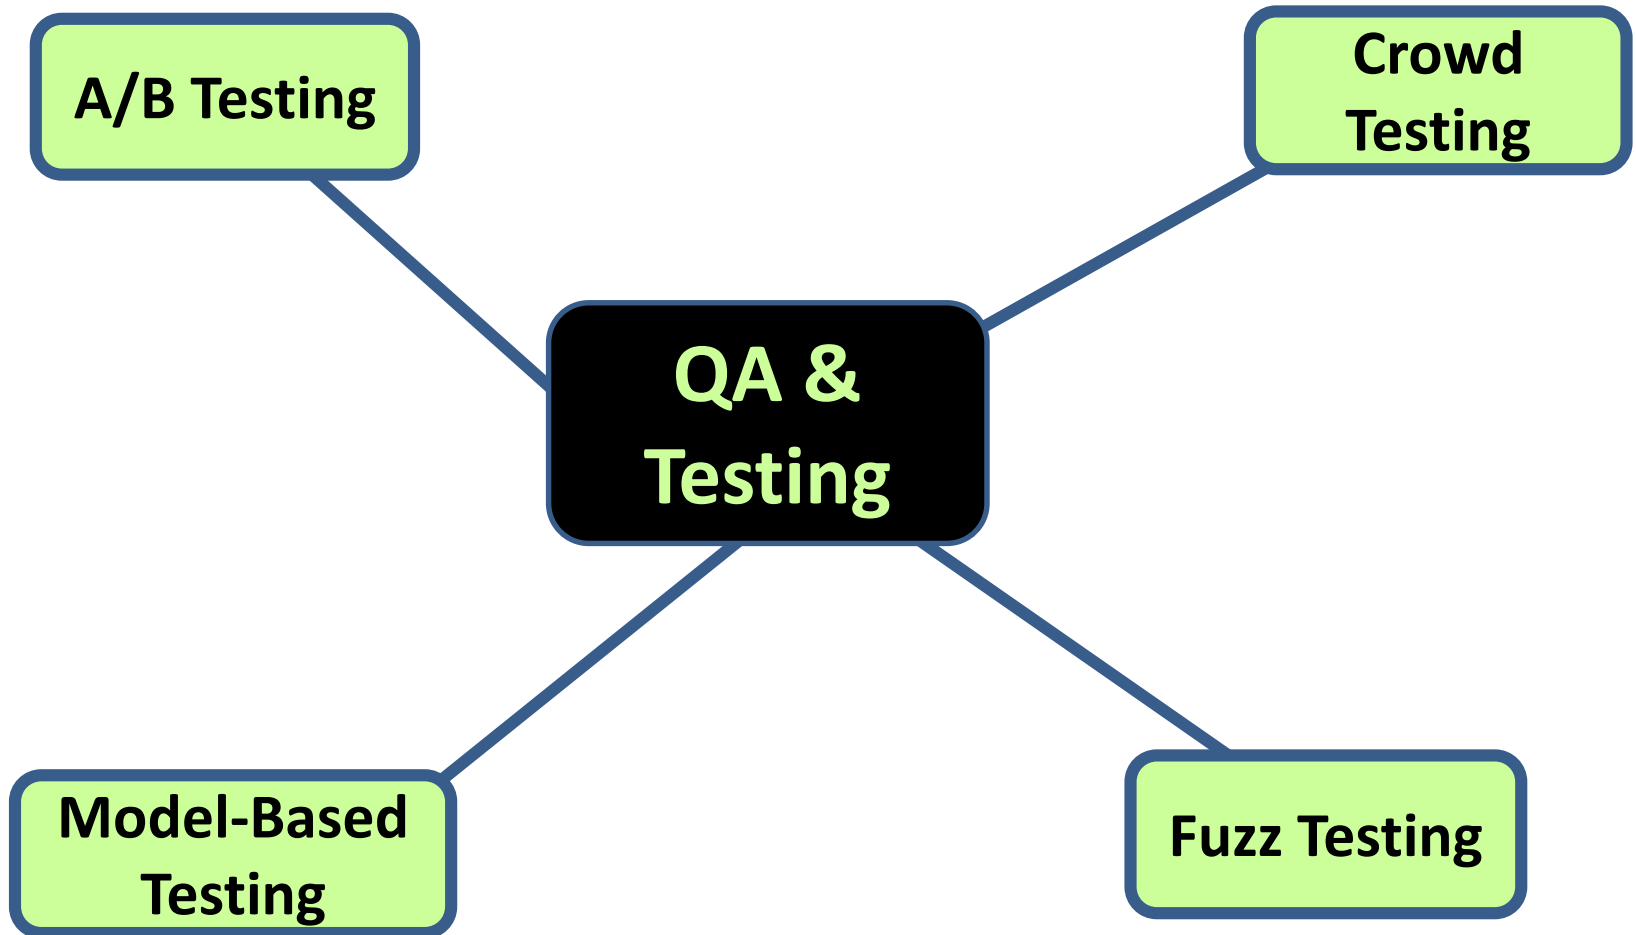

# And what about the users as testers?

- **Their personas are perfect 😊**
  - we don't have to guess their habits or preferences
- **Their test environments are truly representative 😊**
- **Can we trust them?**
  - use NDAs
  - don't tell them!

# Testing Without Test Design

---

# Mobile

# Mobile Trends

Almost all IT decision makers (90%) expect to increase spending on mobile app development (Nov 2015)

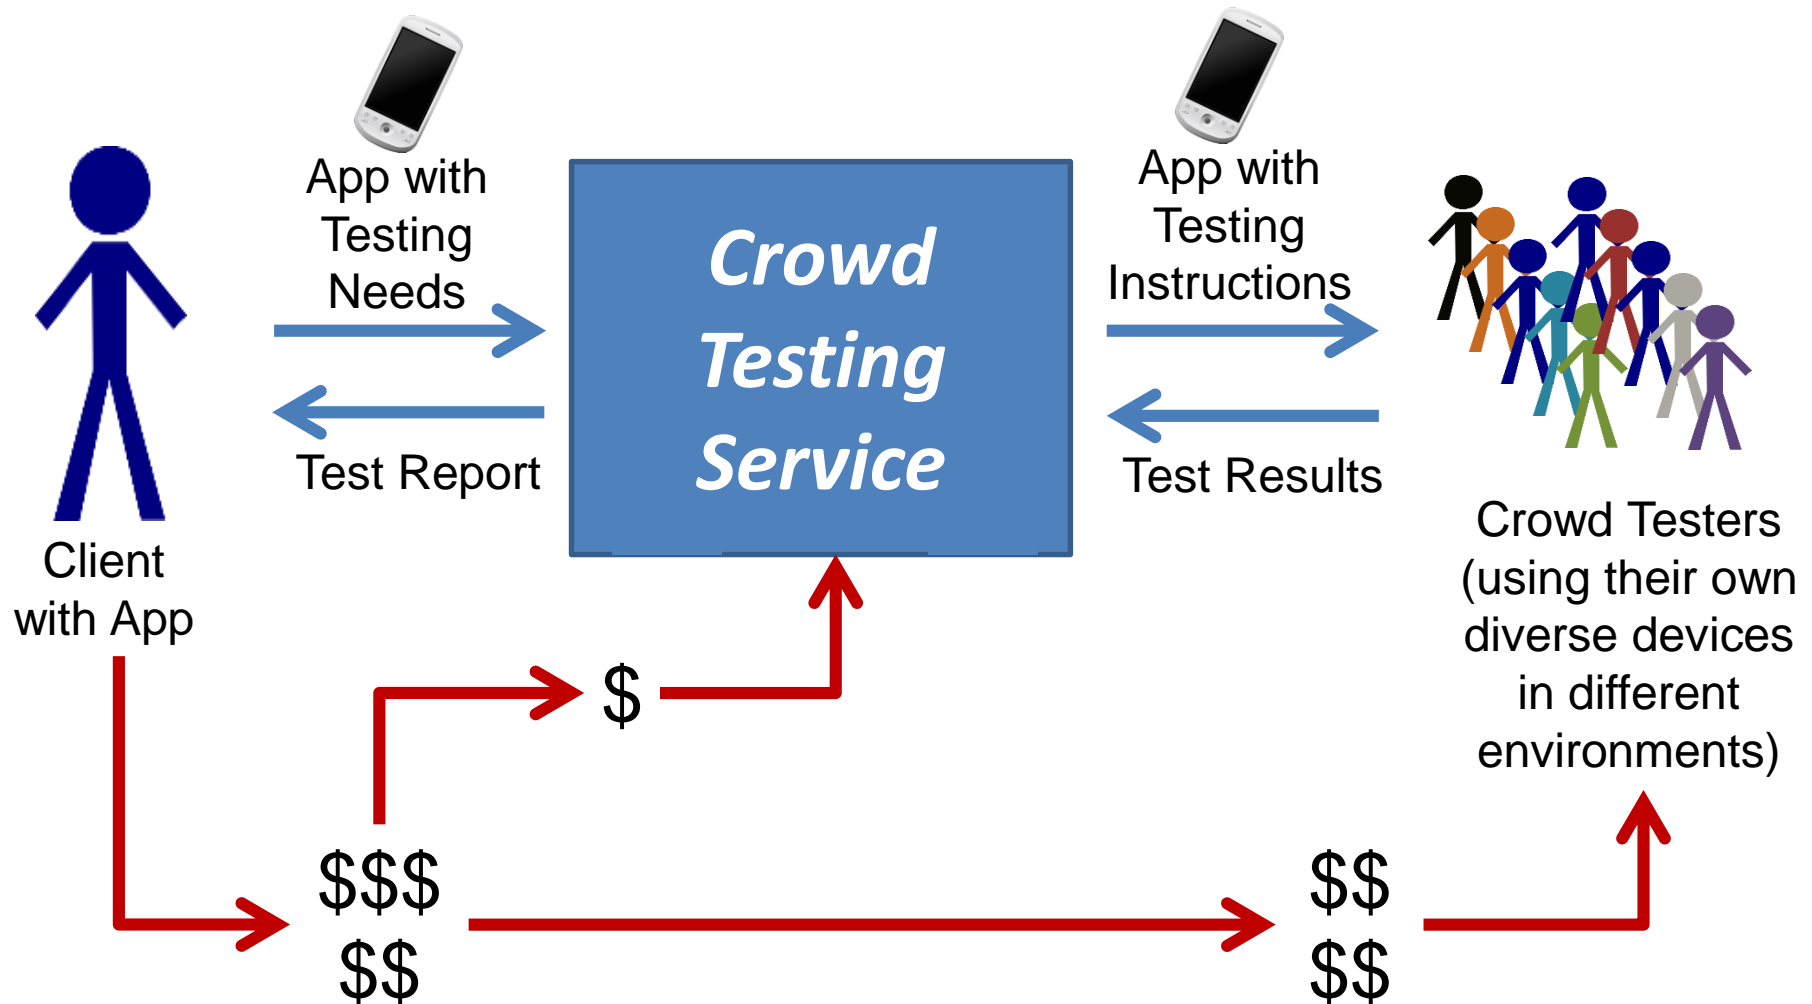

- Mobile services revenue will grow to \$1,200 Billion globally by 2018 (~2% of World economy)
- Mobile connections to reach 9 Billion by 2020 (now 7.9)

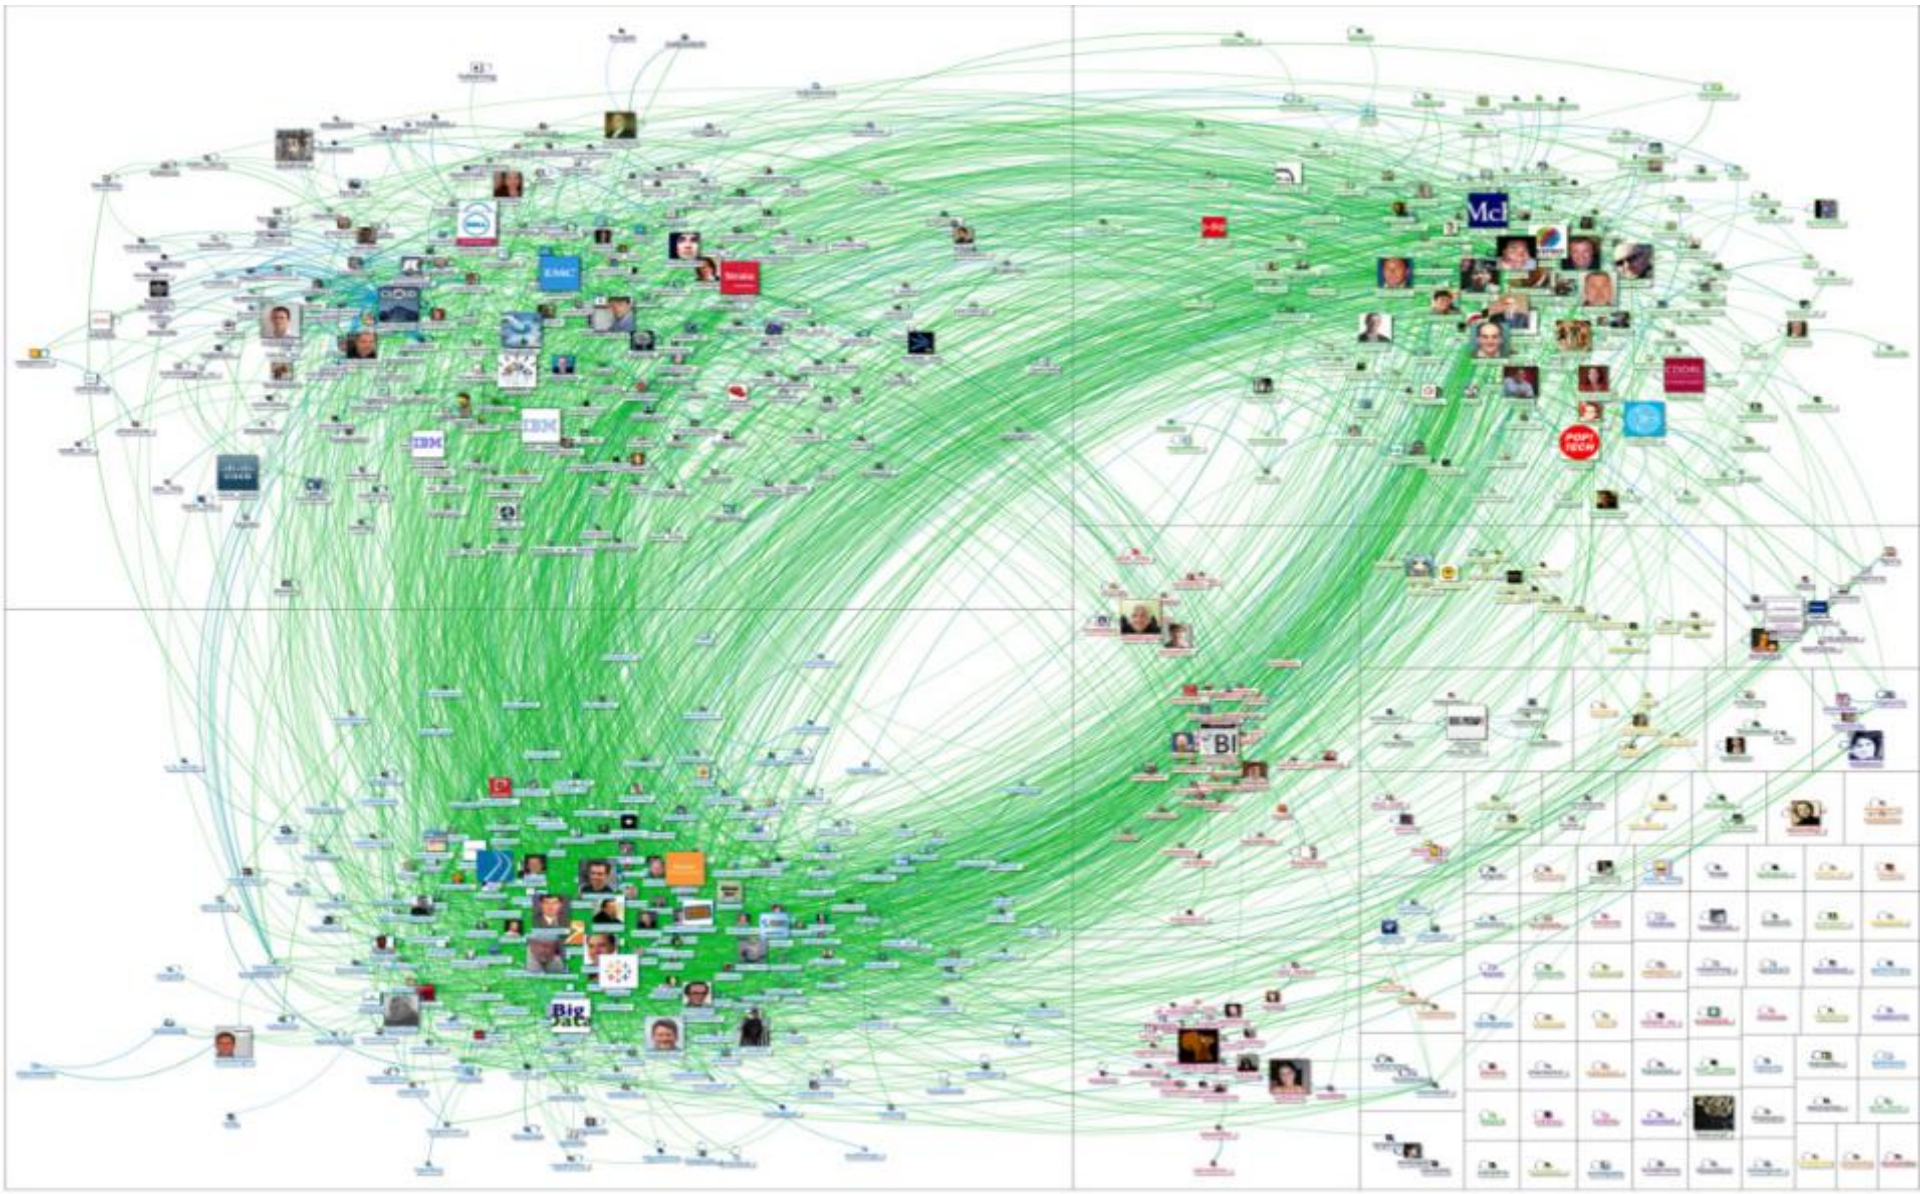

# Crowd Testing for Multiple Devices/Env'ts

# Big Data

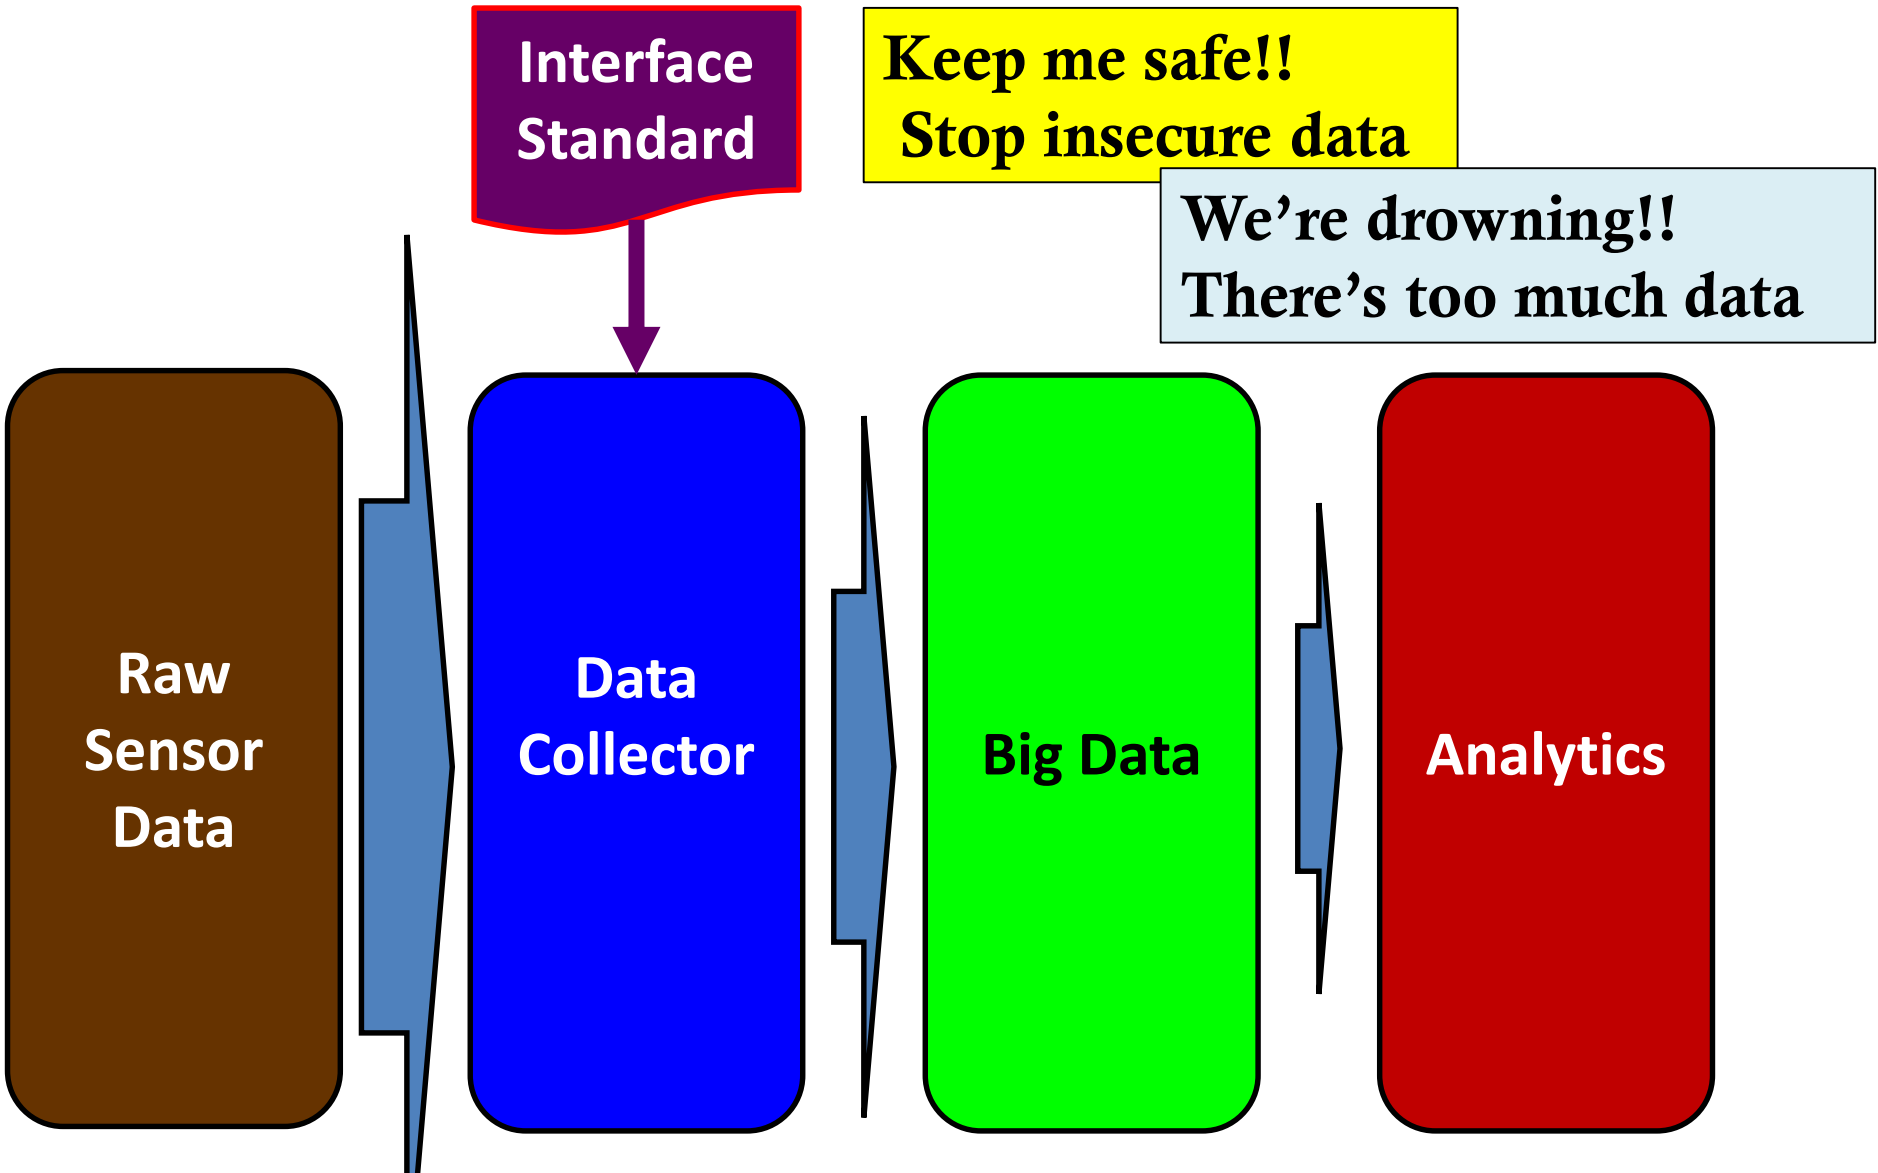

# Example Data Volumes

- **Airliner**
  - 3 GB/hour
- **CCTV**
  - 1 TB/month
- **Mobile Phone Operator**
  - 3 TB/day
- **Globally**
  - 2.5 Million TB/day

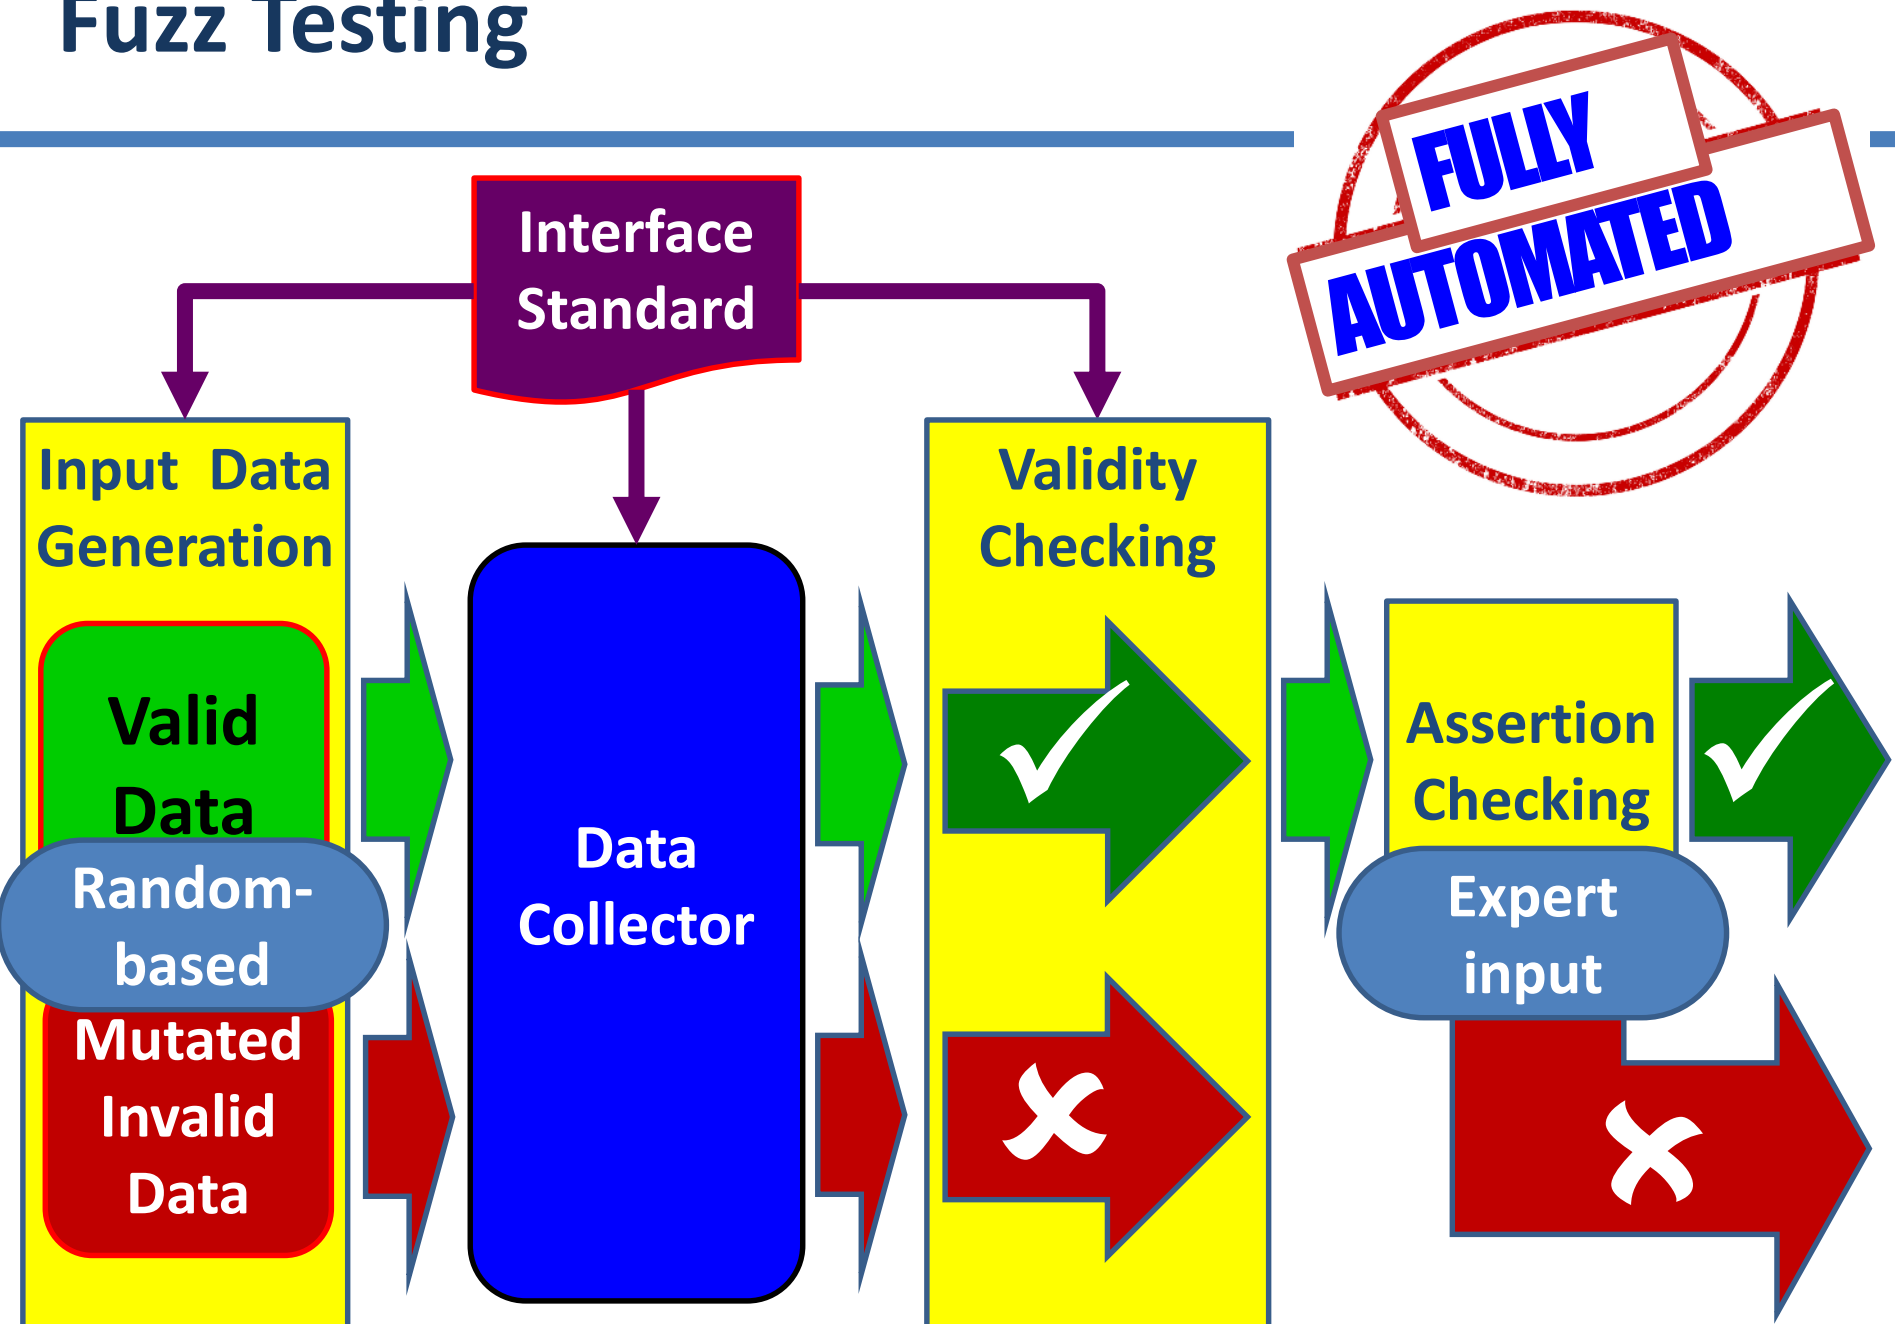

# Data Validity

# Fuzz Testing

# Data Analytics

---

Big Data

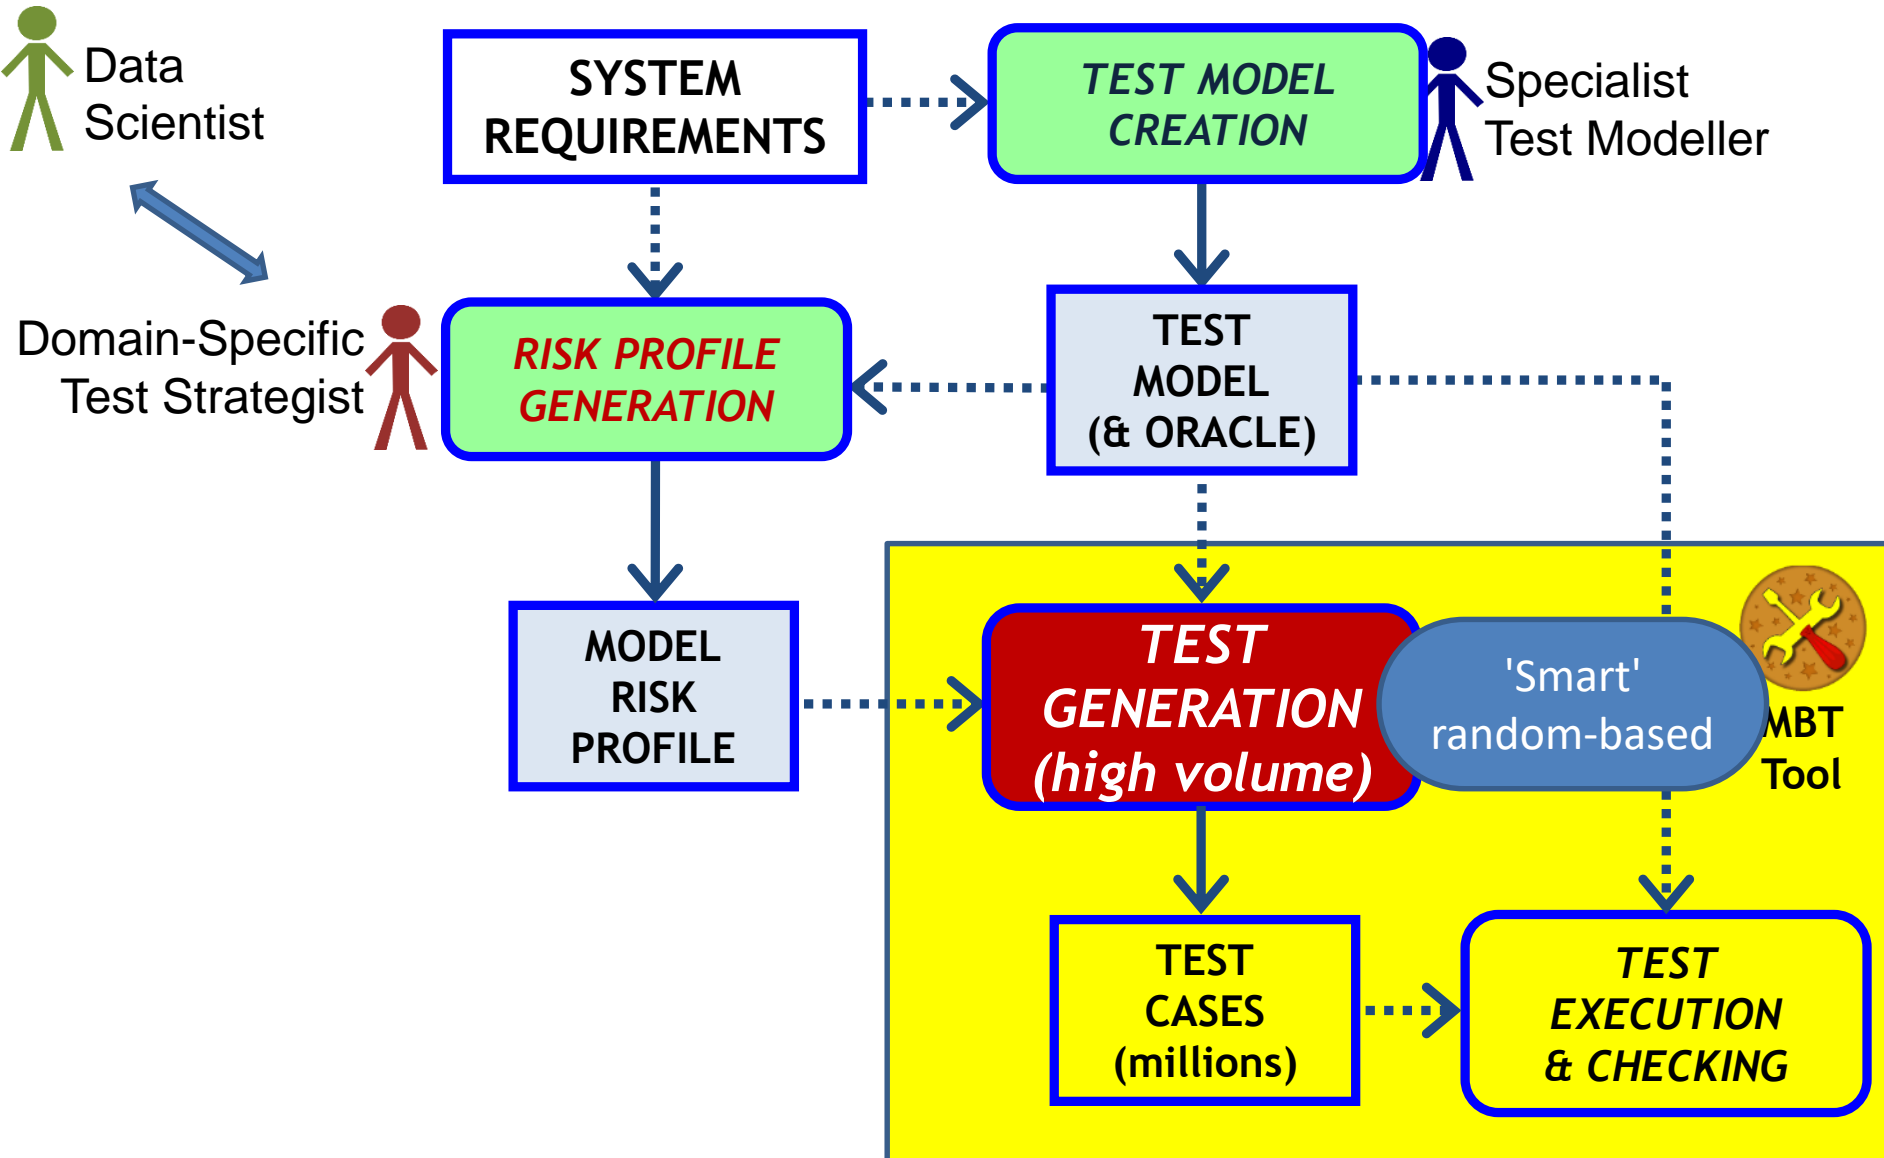

```
graph TD; A[Big Data] --> B['Magic']; B --> C[Assets]
```

'Magic'

Assets

# Model-Based Testing for Data Analytics

# Social Media (and other areas)

# A/B Testing

**ORIGINAL  
BENCHMARK**

**MORE SALES?  
HIGHER PRODUCTIVITY?  
HAPPIER USERS?  
FASTER COMMUTES?**

# Conclusions

---

- **Testing must get more efficient**
  - we can't justify spending 40% of the IT budget
  - there aren't enough professional testers to spend this on
- **We have to think 'outside of the (black and white) box'**
- **We need to supplement traditional approaches...**

**Testing WITHOUT Test De**

Thank you for listening 😊

---

**Any Questions?**
